35	Wider conversation about what a 'healthy community' looks like, includes well being, belonging, participation etc. Opportunities for VCS groups/ organisations of varying kinds, draw on wider area practice.
36	The Quay as you know is a disgrace for residents and visitors and the dogs mess is just getting worse.
37	The slow and consistent decline of the quay and flooding onto the fields upsets me every time I go past. Gateway to the broads it ain't I'm afraid.
38	I think there are quite a lot of parks in Worlingham and Beccles but they never seem to be used. All that I have visited don't seem to be maintained, the play equipment left to rot, not painted and when the grass is cut the cuttings are left behind - not great for toddlers and babies. And not an attractive place for mums to meet. Maintain all the existing parks properly or create one large central recreation area (like facilities available at Eaton park) and commit to maintain them properly.
39	The playground at Puddingmoor would benefit from some TLC. Although the equipment is quite spaced out fencing to enclose some of all of it would make taking small children there easier to manage, particularly given how close it is to deep water.
